

SWAROVSKI announced lots of changes ahead, most notably that they will be removing the ability of the general public to purchase their products. Unless you are a high end designer most likely you will not be able to purchase. We **will** be able to sell any inventory we have accumulated even after this takes place (9/30/2021) but cannot guarantee how long it will last. We are also working on other product lines to replace Swarovski. Sadly, this includes our Silver Lining Rhinestones.

They also announced that they will be discontinuing a number of products over the next few months. Some items will be discontinued entirely while other will still be produced on special order but requiring very large minimum order quantities.

The items that are slated to be completely discontinued (as future discontinued) will be fully out of production by **March 31, 2021** and there will be no reproduction. You are able to get whatever is currently available, but they MAY decide to not produce some before 3/31.

We encourage you to review the listings below that reflect the status of any items that are either going to be discontinued entirely or available with special production only. We strongly suggest if you use any of these color you purchase ASAP. A **LIST OF SHAPES** is on the website under NEWS! This list is extensive and again, we strongly suggest ordering ASAP. For large orders please Email: Sales@RhinestoneSupply.com www.RhinestoneSupply.com Here are some highlights of the colors that will be affected across all product categories:
